

Amendment 38 offered by Mr. Butterfield

In the subsection entitled “21ST CENTURY CURES AND MENTAL HEALTH REFORMS”, insert the following after “programs and policies.”:

“As the Committee conducts oversight of the newly-created Assistant Secretary for Mental Health and Substance Use at HHS, and new mental health programs and policies, it will examine implementation to ensure that all health professions critical to mental and behavioral health are included as the law is enacted and not overlooked in new policies. This includes but is not limited to clinical social work, which is estimated to be the most plentiful and have the largest workforce of mental health providers, clinical psychologists, marriage and family therapists, psychiatrists, advanced practice psychiatric nurses, pharmacists, and licensed professional and/or mental health counselors.”
